

How to Make Your Gift Box Napkin Rings

Print the design below and use as a template or print directly onto the non decorative side of a piece of heavy letter sized paper.

Cut the red lines, score and fold on the dotted lines. Use a suitably sized punch or scissors to cut out the circle shapes.

Assemble the boxes and glue or tape together. The larger tabs are meant to be folded and inserted into the box, but since these are napkin rings, you can glue or tape these in place as well.

Add bows or other decorative elements as you please.

Have fun!

Lydia 😊
